Outreach: Sanford High School Exhibit Project at the Sanford Museum

The East Central Regional Office is assisting the Sanford Museum and the Sanford High School in creating exhibits on local history. Sanford High School students will be using their 3D maker space to print artifacts from the Sanford Museum Collection. FPAN staff, along with staff from the Sanford Museum are using photogrammetry to model aspects of the collection for the students, and to create a digital presence for the museum's collection.

Emma with the Sanford High School Class learning about photogrammetry.

Outreach: IRSC Fielden Institute lecture series returns to in person talks

The East Central Regional Office has continued to partner with the Indian River State College Fielden Institute for Lifelong Learning offering archaeology themed lectures. This year, the program has returned to in person lectures, starting with an Archaeology Field Day where participants tried their hand at pottery and throwing atlatls.
